INSTRUCTIONS

1. Before you purchase you shoes, please take the time to measure the insole of a current sport shoe you wear. Then compare it to the chart above and chose the correct size.
2. Please note: sizing varies from manufacturer to manufacturer. As such, do not just order a size based on a different brand shoe you wear.
3. The correct way to measure is from the tip of the toe to the back of the heel, between the two furthest points.
