THUNDER

40 SPEED 30 SPIN 100 CONTROL

- The Thunder offers a sandpaper surface, the staple of many recreational players
- Sandpaper will shorten the ball's normal lifespan and is not approved for tournament play
- Also available in a bulk box of 100

CYCLONE

60 SPEED 50 SPIN 90 CONTROL

- Old-school racket used by the great players in the 1940's
- The pips-out surface with no sponge layer is more commonly referred to as "hardbat", which offers sharp, crisp strokes
- The Cyclone is great for control play and long rallies
- Also available in a 2-player set, 4-player set and bulk box of 100.

VORTEX

80 SPEED 70 SPIN 80 CONTROL

- Same pips-out surface as the Cyclone, with an added sponge layer
- Ideal for the player making the transition from "hardbat" to a sponge racket
- Meets ITTF's red/black color rule stating one side of racket must be black and other red
- Also available in a 2-player set and a 4-player set.

BLAZE

90 SPEED 85 SPIN 75 CONTROL

- The Blaze has been revamped as a combination pips-in/pips-out racket
- Meets ITTF's red/black color rule stating one side of racket must be black and other red

TSUNAMI

100 SPEED 100 SPIN 70 CONTROL

- The Tsunami offers a more aggressive topsheet than that of the Blaze which will provide more spin
- Meets ITTF's red/black color rule stating one side of racket must be black and other red

THUNDER BOX OF 100

- Ideal for institutions
- The staple of many recreational players
- Sandpaper will provide a minimal amount of spin
- Each racket is individually wrapped in a plastic bag

CYCLONE BOX OF 100

- Ideal for institutional use
- Pips-out surface with no sponge, also known as "hardbat"
- Each racket is individually wrapped in a plastic bag

CYCLONE 2 PLAYER SET

TABLE FAQ

TOP

Simply put, the thicker the top, the better the bounce. A wood top that is at least 1/2" thick is suitable for home or recreational play. Many institutional tables are 5/8" to 3/4" thick. Almost all professional quality tables are a minimum of 7/8" to 1" thick.

RAIL

A heavy gauge steel rail will reinforce the structure of the table and provide additional support. It also serves a cosmetic purpose, adding to the beauty of your table.

LEGS

Heavy gauge steel legs provide a solid foundation for your table. Round legs are sufficient, but square legs are more structurally sound.

NET

All of our tables come with a net set. Our Home and Outdoor use tables offer a basic net. The Institutional and Professional level models are equipped with a higher quality cloth net which clamps directly to the table and features heavy duty brackets with padded clamps that help protect the surface of the table. These nets also offer a dual precision height adjuster.

PLAYBACK POSITION

Most models allow you to fold up one half of the table and use it as a backboard. This will quicken reflexes and sharpen hand-eye coordination. A great feature for the kids.

ADJUSTABLE FEET

Many of our Institutional and Professional level tables have adjustable feet. This will ensure that the table is level, even when the floor is not.

ACCESSORY HOLDER

Some models feature a convenient accessory holder that is integrated into the frame of the table. It will accommodate multiple rackets and balls. This system also allows the net to remain attached to the table during play as well as in the storage position.

DIMENSIONS

Measure your intended playing area before ordering a table. In the play position, the table measures 9' long by 5' wide. The net brackets will add approximately 1' to the width of the table. An additional 5' on each side of the table will allow a comfortable distance for play. Storage height will vary, so be sure to check the product descriptions for more information.

It is also a good idea to measure all doorways, hallways and stairwells that the table may encounter prior to reaching its final destination.

AMICUS PRIME

The new AMICUS PRIME sets out to redefine the possibilities of a table tennis robot and will excite fans all over the world. The innovative PRIME is controlled wirelessly via Bluetooth technology from the AMICUS app running on either the included tablet computer or any smartphone or tablet operating iOS or Android.

AMICUS app software offers a multitude of interactive content, improved and added to with regular updates. Creating exercises, changing spin, speed, placement and trajectory has never been easier.

Pre-saved exercises created by professional players and coaches are playable at the press of a button with in-app videos by stars such as Timo Boll just waiting to show the correct execution and provide useful additional information from his regular training with the AMICUS robot.

Get acquainted to our AMICUS flagship model and discover the new possibilities of the most tireless, and always ready, training partner you will find.

AMICUS EXPERT

The new AMICUS EXPERT combines the skills of both predecessors ADVANCE and PROFESSIONAL. With 99 memory slots, up to seven individual balls per exercise and precise control over trajectory, placement, speed and spin of each ball, AMICUS EXPERT further features up to 100 balls per minute, cycle and random functions as well as automatic adjustable delay between each ball to create exercises based on real game situations – even with serve!

AMICUS EXPERT offers 20 pre-installed exercises created by Butterfly coach Richard Prause for you to start training on the highest level as well as a remote control for Start/Stop, sampling balls and adjusting ball frequency.

AMICUS START

The new AMICUS START is a high-quality table tennis robot featuring precise and durable hardware combined with a user-friendly panel. Allowing for up to six balls per exercise, AMICUS START allows you to adjust individual placement and select either topspin, sidespin or backspin for the exercise – even float balls without spin are possible. The Random function provides a realistic playing experience sure to improve footwork and technique alike.
