Realised Compatible Friction And Bounce
At High Level

HIGH TENSION

SPRING SPONGE X

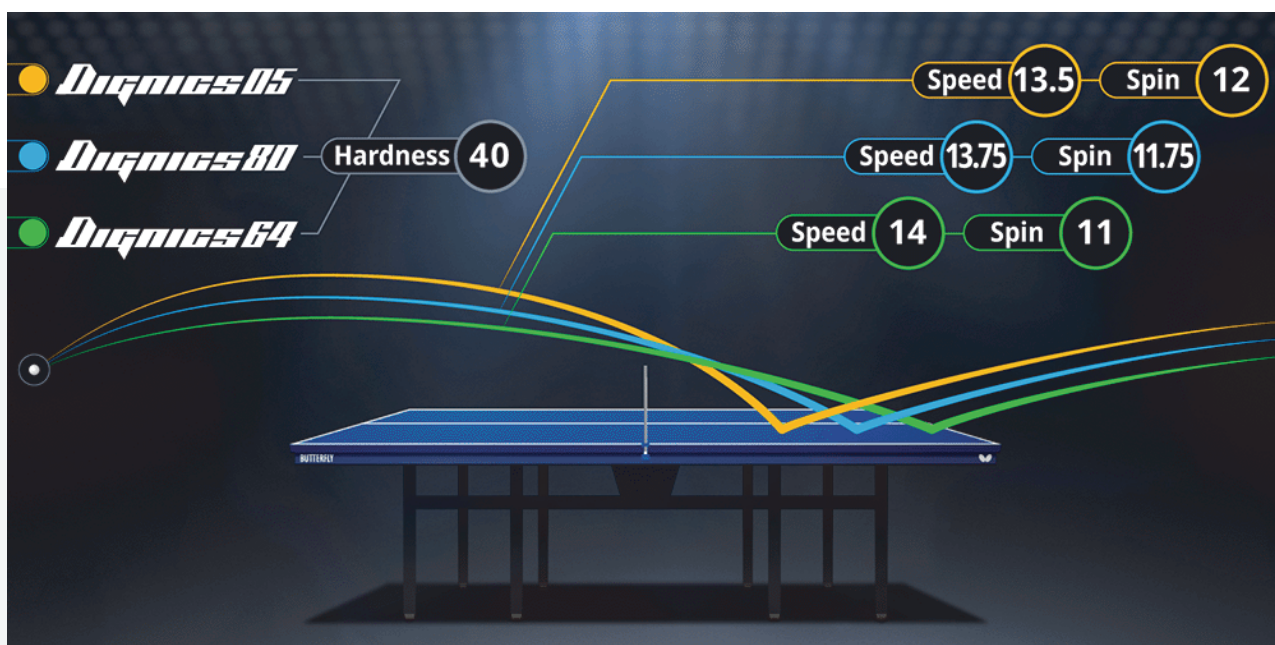

Dignics guides your play to a more advanced level. The essence is the combination of Spring Sponge X, the advanced version of Spring Sponge which has more elasticity; the uniquely composed top sheet, with strength- ened abrasion, proves great resistance on the surface, providing the feeling of holding the ball at impact. Adopting pimples code No. 05 recognised for its high spin performance, Dignics 05 is recommended for the player who seeks to generate a high level attacking play imparting powerful topspin, as well as counter topspin play both close to the table and at mid distance.

DIGNICS 05

Guides your play to a more advanced level. The essence is the combination of Spring Sponge X, the advanced version of Spring Sponge which has more elasticity; the uniquely composed top sheet, with strengthened abrasion, proves great resistance on the surface, providing the feeling of

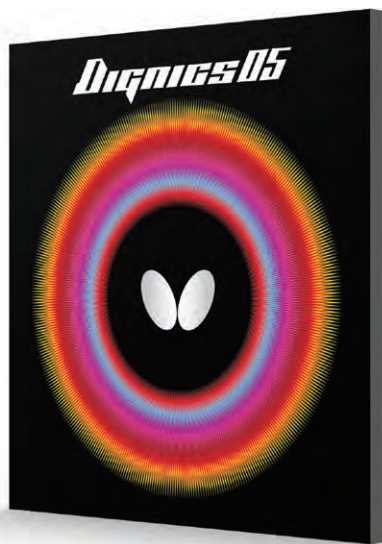

holding the ball at impact. Adopting pimples code No.05 recognised for its high spin performance, DIGNICS 05 is recommended for the player who seeks to generate a high level attacking play imparting powerful topspin, as well as counter topspin play both close to the table and at mid distance.

SPRING SPONGE X

Easier to impact than conventional "Spring Sponge" and with an improved rebound the new Spring Sponge X provides the increased feeling of "holding" the ball on the racket and enables to arc the ball

even better, creating more spin and powerful shots, all with a total weight reduced by about 3%, compared to "Spring Sponge" with the same hardness and thickness.

High Tension pimples-in rubber

Power Of The Ball With Speed At High Level

HIGH TENSION

SPRING SPONGE X

Prominence of X: Power of the Ball with Speed at High Level
The essence is the combination of Spring Sponge X, the advanced version of Spring Sponge which has more elasticity; the uniquely composed top sheet, with strengthened abrasion, proves great resistance on the surface, providing the feeling of holding the ball at impact
Adopting pimples code No.64 featuring high speed performance, DIGNICS 64 is recommended for athletes seeking high-level aggressive play such as speed drive, smash, etc.

NEW

DIGNICS 80

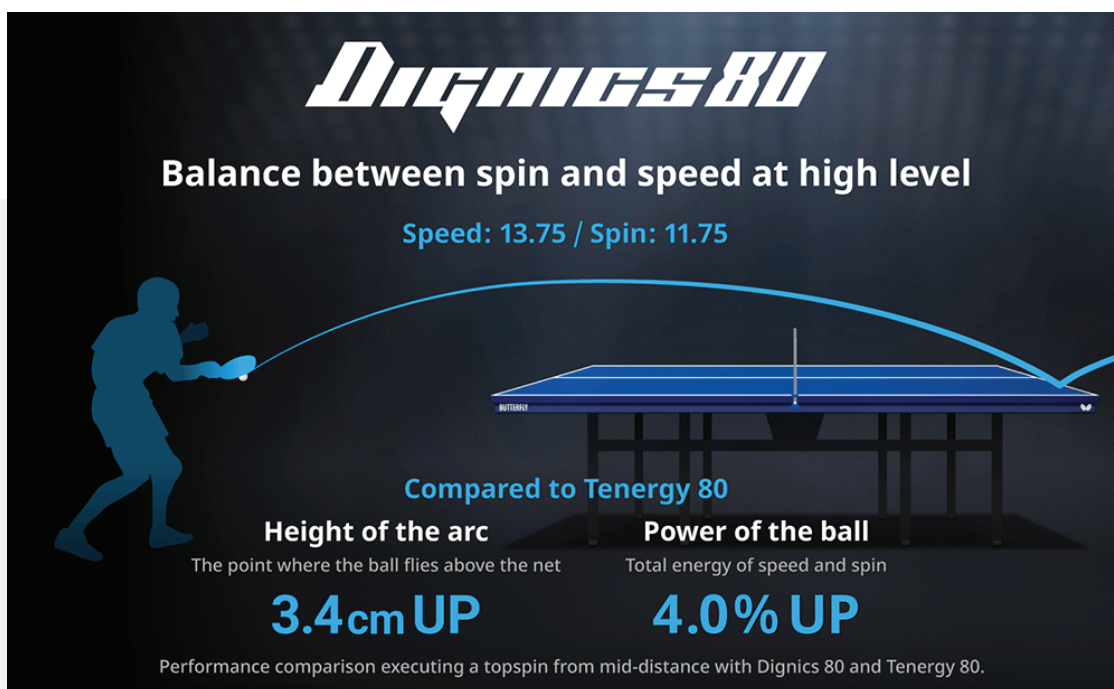

High Tension pimples-in rubber

Balance Between Spin And Speed At High Level

HIGH TENSION

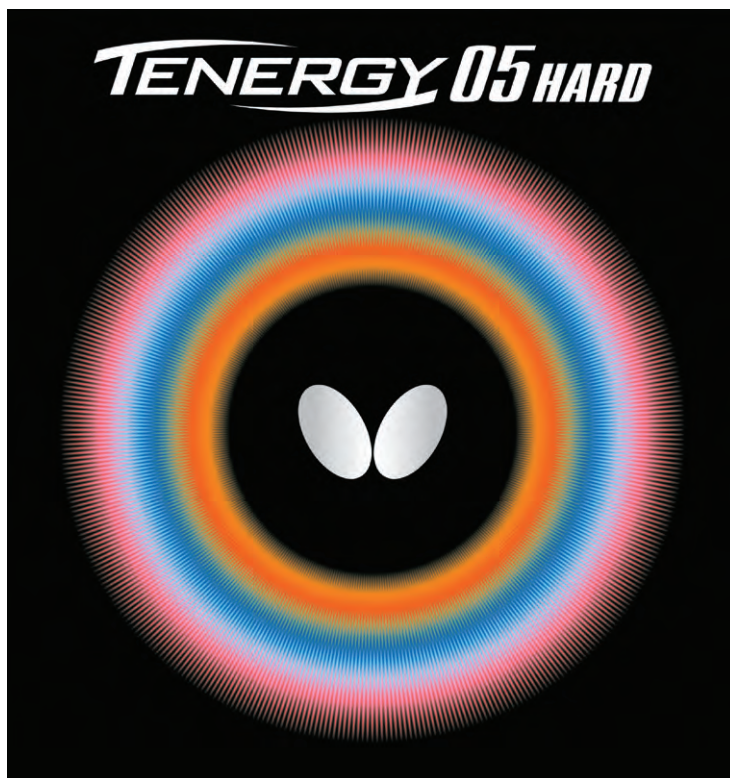

SPRING SPONGE X

Prominence of X: Balance between Spin and Speed at High Level
The essence is the combination of Spring Sponge X, the advanced version of Spring Sponge which has more elasticity; the uniquely composed top sheet, with strengthened abrasion, proves great resistance on the surface, providing the feeling of holding the ball at impact
Adopting pimples code No.180 , which has a good balance between spin and speed, DIGNICS 80 is recommended all-round players who want more scoring power in any play area.

TENERGY 05 HARD

High Tension pimples-in rubber

More power added to spin performance

HIGH TENSION

Spring Sponge

IN

Has received many endorsements from players all over the world and has already captured a range of titles. The harder sponge was adopted to generate more power on the ball in addition to its original exquisite spin performance. Main-

taining the feature of Spring Sponge, without losing the feeling of controlling the ball at will, it enables powerful play at an advanced level. The hard sponge responds to a strong impact.

BUTTERFLY RUBBER MATRIX

SPEED

The measure of speed for SRIVER is 10. (Large ball rubber: The measure of speed for LARGESTORM SPEED is 13.5.)

SPIN

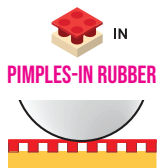

The measure of spin for TACKINESS CHOP is 10. (Large ball rubber: The measure of spin for LARGESTORM SPIN is 11.5.)

HARDNESS

It refers to the sponge; the higher the number, the harder the sponge.

RUBBER CATEGORIES

Pimples-in rubber

A rubber with a large contact area for the ball, which makes it easy to impart spin; there are two types, highly elastic with high reaction and moderate for control.

High Tension pimples-in rubber

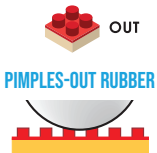

A rubber with very high elasticity and friction; it is created by impacting tension into the rubber molecule.

High friction pimples-in rubber

A rubber which imparts spin on the ball with ease as a result of the tackiness of the surface.

High friction High Tension pimples-in rubber

A rubber with very high elasticity and friction created by impacting tension into the rubber molecule as well as enabling spin to be imparted on the ball owing to the tackiness of the surface.

Pimples-out rubber

A rubber with a small contact area on the ball, which means it is less affected by the opponent's spin as the ball does not stay on the rubber for long.

High Tension pimples-out rubber

A pimples-out rubber with very high elasticity created by impacting tension into the rubber molecule.

Pimples-out rubber for large 44mm ball

A pimples-out rubber designed for large 44mm ball, enabling a high level of control.

High Tension pimples-out rubber for large 44mm ball

A pimples-out rubber designed for the large 44mm ball plays with very high elasticity; it is created by impacting tension into the rubber molecule.

Pimples-out rubber (without sponge)

A rubber without sponge; it is light weight and has low elasticity.

Long pimpled rubber

A long pimpled rubber with unexpected variety of rotations as the pimples easily transform on contact.

High Tension long pimpled rubber

A long pimpled rubber which combines variation and elasticity; created by impacting tension into the rubber molecule.

Long pimpled rubber (without sponge)

A long pimpled rubber without sponge; it is light weight and has low elasticity.

Anti-spin rubber

BUTTERFLY RUBBER TECHNOLOGIES

High Tension technology enhances the reaction of the playing surface by adding tension to the rubber molecule itself; this is made possible by applying special substances to rubber materials.

Like a coil spring, the Spring Sponge absorbs the incoming energy of the ball and releases it as additional power for the player's own shot. Rubbers with Spring Sponge technology enable shots with high amounts of spin.

Easier to impact than conventional "Spring Sponge" and with an improved rebound the new Spring Sponge X provides the increased feeling of "holding" the ball on the racket and enables to arc the ball even better, creating more spin and powerful shots, all with a total weight reduced by about 3%, compared to "Spring Sponge" with the same hardness and thickness.

The base of the top sheet is very thin, visible to the naked eye. The rubber compresses and the surface is "depressed" by the ball on impact; thus enabling a high degree of rotation to be imparted on the ball.

REVOLDIA CNF

CNF blade with high reaction
and feeling of ball holding

*Blade size: 157×150mm

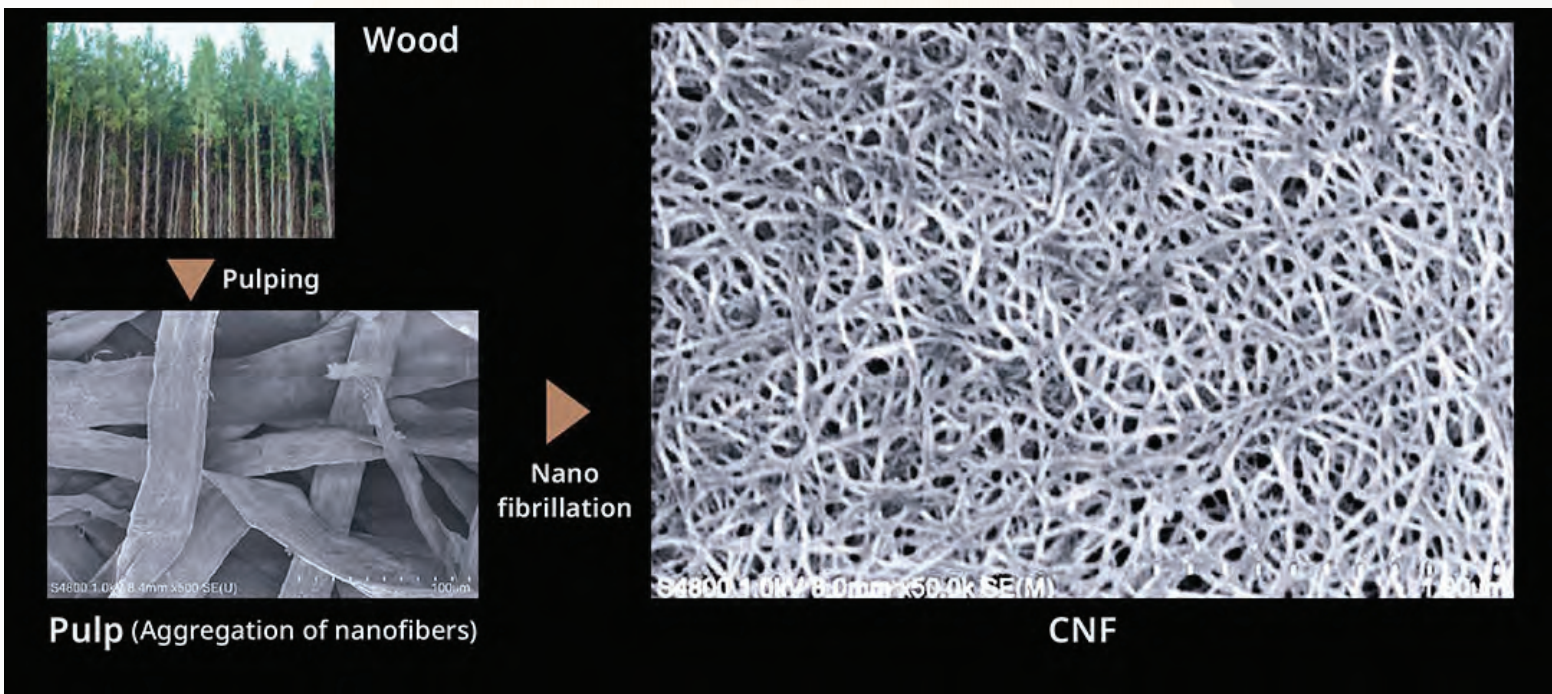

*Blade thickness: 5.7mm

*Grip size: **[FL]** 100×24×34mm
(Length × thickness × end width)

Cellulose nanofiber; the newly adopted Nano-technology artificial fiber creates a blade with high reaction and lower vibration property. While enabling powerful shots, the blade offers a good feeling of holding of the ball thanks to its low vibration property.

CNF is an abbreviation for “Cellulose NanoFiber”. It is an ultra-fine fiber obtained by finely loosening plant fibers such as wood to nano size (*), that is one-fifth lighter and five times as strong as iron. It is an innovative and cutting-edge biomaterial, a renewable resource as it is derived from plants. It has a unique performance that is different from traditional paper pulp.

* One nano is one-millionth of a millimeter. About 1/10000 to 1/5000 of the thickness of the hair.

BUTTERFLY *Revoldia* MADE IN JAPAN

Outer plywood structure that could take full advantage of the features of CNF is the right answer conducted after trial and error by the Butterfly R & D team. The blade has both high reaction and low vibration property that until now could not be realized by equipping traditional artificial fibers. This is an unprecedented blade with long dwell time of all-wood or Innerfiber blades without losing its high-speed performance.

HADRAW SK

7-ply blade for range of styles

*Blade size: 157×150mm *Blade thickness: 6.4mm

*Grip size: **[FL]** 100×24×34mm **[ST]** 100×22×28mm **[AN]** 100×24×34mm
(Length × thickness × end width)

HADRAW VR

5-ply all-wood blade for powerful attack

*Blade size: 157×150mm *Blade thickness: 5.9mm

*Grip size: **[FL]** 100×25×34mm **[ST]** 100×23×28mm **[AN]** 100×25×34mm
(Length × thickness × end width)

HADRAW VK

5-ply blade for all-round play

10.5 REACTION	8.4 VIBRATION	5 PLY
------------------	------------------	----------

*Blade size: 157×150mm *Blade thickness: 5.7mm

*Grip size: **[FL]** 100×24×34mm **[ST]** 100×23×28mm **[AN]** 100×24×34mm
(Length × thickness × end width)

TIMO BOLL W7

7-ply blade with power and control

11.4 REACTION	10.0 VIBRATION	7 PLY
------------------	-------------------	----------

*Blade size: 157×150mm *Blade thickness: 6.8mm

*Grip size: **[FL]** 100×24×34mm **[ST]** 100×22×27.5mm **[AN]** 100×24×34mm
(Length × thickness × end width)

SK7 CLASSIC

Revived model of the classic masterpiece SK7

11.1 REACTION	9.3 VIBRATION	7 PLY
------------------	------------------	----------

*Blade size: 157×150mm *Blade thickness: 6.8mm

*Grip size: **[FL]** 100×25×34mm **[ST]** 100×23×28mm
(Length × thickness × end width)

KORBEL SK7

7-ply blade popular in Europe

*Blade size: 157×150mm *Blade thickness: 6.8mm

*Grip size: **[FL]** 100×24×35mm **[ST]** 100×23×28mm **[AN]** 100×24×34mm
(Length × thickness × end width)

A. MAZUNOV

All-wood blade for powerful attacking

*Blade size: 158×152mm *Blade thickness: 6.7mm

*Grip size: **[FL]** 100×25×34mm **[ST]** 100×23×27.5mm **[AN]** 100×25×32mm
(Length × thickness × end width)

KONG LINGHUI

Champion's model with exquisite control

*Blade size: 154×148mm *Blade thickness: 5.5mm

*Grip size: 100×24×34mm

(Length × thickness × end width)

KORBEL

Synonym for all-wood 5-ply blade

*Blade size: 158×152mm *Blade thickness: 5.9mm

*Grip size: **[FL]** 100×24×34mm **[ST]** 100×23×28mm
(Length × thickness × end width)

MAZE PERFORMANCE

Distinguished high-level performance

*Blade size: 157×150mm *Blade thickness: 6.7mm

*Grip size: 100×24×34mm
(Length × thickness × end width)

PRIMORAC

Blade with European speed

*Blade size: 157×150mm *Blade thickness: 5.5mm

*Grip size: 100×25×34mm
(Length × thickness × end width)

NEW

XSTAR V

Provides high precision and stability

*Blade size: 158x152mm *Blade thickness: 5.6mm

*Grip size: **[FL]** 100x24mm
(Length × thickness × end width)

BOLL FORTE

Provides high precision and stability

*Blade size: 158x150mm *Blade thickness: 6.0mm

*Grip size: **[FL]** 100x25mm **[AN]** 100x25mm **[ST]** 100x25mm
(Length × thickness × end width)

BOLL OFFENSIVE

The blade is also lighter making it easier to maneuver

*Blade size: 158x150mm *Blade thickness: 5.9mm

*Grip size: **[FL]** 100x25mm **[AN]** 100x25mm **[ST]** 100x25mm
(Length × thickness × end width)

BOLL ALLROUND

The blade is also lighter making it easier to maneuver.

*Blade size: 159x150mm *Blade thickness: 5.5mm

*Grip size: **[FL]** 100x25mm **[AN]** 100x25mm **[ST]** 100x25mm **[XXS]** 153x146mm
(Length × thickness × end width)

BOLL CONTROL

Suitable for players seeking optimum control for precise ball placement

*Blade size: 158x150mm *Blade thickness: 5.7mm

*Grip size: **[FL]** 100x25mm **[AN]** 100x25mm **[ST]** 100x25mm
(Length × thickness × end width)

GIONIS CARBON ALL+

The Gionis Allround is made for any kind of all-round play

+ CARBON

*Blade size: 159x152mm *Blade thickness: 5.4mm

*Grip size: **[FL]** 100x25mm **[AN]** 100x25mm **[ST]** 100x25mm
(Length × thickness × end width)

GIONIS CARBON OFF

The Gionis Offensive plays surprisingly direct and offensive

+ CARBON

*Blade size: 100x25mm *Blade thickness: 6.2mm

*Grip size: **[FL]** 100x25mm **[AN]** 100x25mm **[ST]** 100x25mm
(Length × thickness × end width)

BALSA CARBO X5

The Balsa core offers light weight and great touch

+ CARBON

*Blade size: 158x150mm *Blade thickness: 7.0mm

*Grip size: **[FL]** 102x23mm **[AN]** 103x25mm **[ST]** 103x25mm
(Length × thickness × end width)

ANDRZEJ GRUBBA

Ideal for topspin, short chops, blocks, and smashes.

*Blade size: 158x151mm *Blade thickness: 6.0mm

*Grip size: **[FL]** 100x25mm **[AN]** 100x25mm **[ST]** 100x25mm
(Length × thickness × end width)

NEW

DIODE V

Defensive model but designed also for attacking play

*Blade size: 165×156mm *Blade thickness: 5.7mm

*Grip size: **[FL]** 100×24×34mm **[ST]** 100×23×28mm
(Length × thickness × end width)

MAZE MAGIC

Provides power for even the most offensive topspin shots

*Blade size: 159x151mm *Blade thickness: 5.9mm

*Grip size: **[FL]** 100x24mm **[AN]** 100x24mm **[ST]** 100x24mm
(Length × thickness × end width)

INNERSHIELD LAYER ZLF

Defensive model with ZL-Fiber

*Blade size: 166×155mm *Blade thickness: 5.1mm

*Grip size: **[FL]** 100×24×34mm **[ST]** 100×23×30mm
(Length × thickness × end width)

HADRAW SHIELD

Renowned for consistency in both attack and defence

*Blade size: 166×155mm *Blade thickness: 5.3mm

*Grip size: **[FL]** 100×24×34mm **[ST]** 100×23×30mm
(Length × thickness × end width)

NEW

HARIMOTO TOMOKAZU INNERFORCE ZLC - CS

Innerfiber ZL-Carbon blade with increased power

10.5 REACTION 9.5 VIBRATION 5 PLY + ZL CARBON Innerfiber

*Blade size: 161x150mm *Blade thickness: 5.7mm

*Grip size: 82x24x32mm

(Length x thickness x end width)

NEW

HARIMOTO TOMOKAZU INNERFORCE SUPER ZLC - CS

The first Innerfiber model with Super ZL-Carbon

*Blade size: 161x150mm *Blade thickness: 6.2mm

*Grip size: 82×24×32mm

(Length × thickness × end width)

NEW

HARIMOTO TOMOKAZU INNERFORCE ALC - CS

Tomokazu Harimoto's model

*Blade size: 158x152mm *Blade thickness: 6.0mm

*Grip size: 82x24x32mm

(Length x thickness x end width)

INNERFORCE LAYER ZLC - CS

High-performance Chinese penhold balancing power and control

*Blade size: 161x150mm *Blade thickness: 5.7mm

*Grip size: 82x24x32mm

(Length x thickness x end width)

INNERFORCE LAYER ZLF - CS

High stability achieved thanks to the thin blade

*Blade size: 161x150mm *Blade thickness: 5.3mm

*Grip size: 82x23x32mm

(Length x thickness x end width)

INNERFORCE LAYER ALC.S - CS

Improved ease of imparting spin on the ball

*Blade size: 161×150mm *Blade thickness: 5.5mm

*Grip size: 82×24×32mm

(Length × thickness × end width)

NEW

TIMO BOLL CAF - CS

Highly-balanced model with CA-Fiber

*Blade size: 161×150mm *Blade thickness: 5.7mm

*Grip size: 82×23×32mm

(Length × thickness × end width)

SK CARBON - CS

Easy-to-use carbon blade

*Blade size: 161×150mm *Blade thickness: 5.2mm

*Grip size: 82×24×32mm

(Length × thickness × end width)

SK7 CLASSIC - CS

Chinese penhold of all-wood 7-ply

*Blade size: 161×150mm *Blade thickness: 6.8mm

*Grip size: 82×24×32mm

(Length × thickness × end width)

ZHANG JIKE SUPER ZLC - CS

It makes power and control possible at the same time

*Blade size: 161x150mm *Blade thickness: 5.6mm

*Grip size: 82x24mm

(Length × thickness × end width)

AMULTART - CS

The resulting blade has great speed

*Blade size: 161x150mm *Blade thickness: 7.1mm

*Grip size: 82x25mm

(Length × thickness × end width)

INNERFORCE LAYER ALC CS

Well-Balanced Model With Bounce And Usability Style

*Blade size: 161x150mm *Blade thickness: 6.0mm

*Grip size: 82x24mm

(Length × thickness × end width)

PRIMORAC CARBON-CS

Carbon With An Irresistible Power Style

*Blade size: 161x150mm *Blade thickness: 6.9mm

*Grip size: 82x25mm

(Length × thickness × end width)

TIMO BOLL ALC CS

Offers the maximum blend of speed, heavy spin & control

*Blade size: 157x150 mm *Blade thickness: 5.4mm

*Grip size: 82x24mm

(Length × thickness × end width)

TIMO BOLL ZLC CS

High Performance Model With ZL-Carbon Style

*Blade Size: 157x150mm *Blade Thickness: 5.5mm

*Grip size: 82x24mm

TIMO BOLL ZLF CS

High Performance Model With ZL-Fiber Style

*Blade Size: 157x150mm *Blade Thickness: 5.4mm

*Grip size: 82x24mm

SUPREME SPEED CS

Fast And Precise For Relentless Attacks Style

*Blade size: 157x150mm *Blade thickness: 6.9mm

*Grip size: 82x25mm

(Length × thickness × end width)

HADRAW VR - CS

5-ply Chinese penhold for powerful attack

11.4 REACTION	9.3 VIBRATION	5 PLY
------------------	------------------	----------

*Blade size: 161×150mm *Blade thickness: 5.9mm

*Grip size: 82×24×32mm

(Length × thickness × end width)

STRAVE CS

Strike Bravely, Strave Style

11.4 REACTION	12.2 VIBRATION	3 PLY
------------------	-------------------	----------

+ TAMCA5000

*Blade size: 158x150mm *Blade thickness: 6.7mm

*Grip size: 82x23mm

(Length × thickness × end width)

CHINESE REAL CS

Distinguished high speed

11.6 REACTION	11.0 VIBRATION	5 PLY
------------------	-------------------	----------

* Blade size: 158×150mm *Blade thickness: 7.7mm

*Grip size: 82×24×33mm

(Length × thickness × end width)

SHAMADA CS

Easy to use your wrist

*Blade size: 160×150mm *Blade thickness: 7.5mm

*Grip size: 80×23×28mm

(Length × thickness × end width)

TAKSIM CS

Fast And Flexible Model With Arylate/Carbon Style

*Blade size: 158x150mm *Blade thickness: 7.0mm

*Grip size: 82x24mm

(Length × thickness × end width)

YOSHIDA KAI CS

Kai Yoshida's model

*Blade size: 161×150mm *Blade thickness: 6.8mm

*Grip size: 82×25×32mm

(Length × thickness × end width)

CYPRESS G-MAX

Best one-ply Kiso Hinoki

13.5 REACTION	12.8 VIBRATION	1 PLY
------------------	-------------------	----------

*Blade size: 163×135mm *Blade thickness: 10.0mm

*Grip size: 92×20×{15, 21}mm

(Length × height × end width {top, bottom})

CYPRESS V-MAX

High-end one-ply Kiso Hinoki

13.5 REACTION	12.8 VIBRATION	1 PLY
------------------	-------------------	----------

*Blade size: 163×135mm *Blade thickness: 10.0mm

*Grip size: 92×20×{15, 21}mm

(Length × height × end width {top, bottom})

CYPRESS T-MAX

One-ply Kiso Hinoki recommended for a wide range of players

12.4 REACTION	12.5 VIBRATION	1 PLY
------------------	-------------------	----------

*Blade size: 163×135mm *Blade thickness: 10.0mm

*Grip size: 92×20×{15, 21}mm

(Length × height × end width {top, bottom})

GARAYDIA REVOLVER

Combination penhold for attack and defence close to the table

*Blade size: 161×141mm *Blade thickness: 6.4mm

*Grip size: 86×16×{20, 20}mm
(Length × height × end width {top, bottom})

HADRAW JPV-R

Plywood penhold style for all abilities

*Blade size: [S] 163×135mm [R] 161×141mm *Blade thickness: 7.1mm

*Grip size: [S] 92×20×{15, 21}mm [R] 92×20×{15, 21}mm
(Length × height × end width {top, bottom})

HADRAW JPV-S

Plywood penhold style for all abilities

*Blade size: [S] 163×135mm [R] 161×141mm *Blade thickness: 7.1mm

*Grip size: [S] 92×20×{15, 21}mm [R] 92×20×{15, 21}mm
(Length × height × end width {top, bottom})

HADRAW REVOLVER

Easy to use combination penhold blade

*Blade size: 161×141mm *Blade thickness: 5.9mm

*Grip size: 86×16×{20, 20}mm
(Length × height × end width {top, bottom})

REACTION PROPERTY

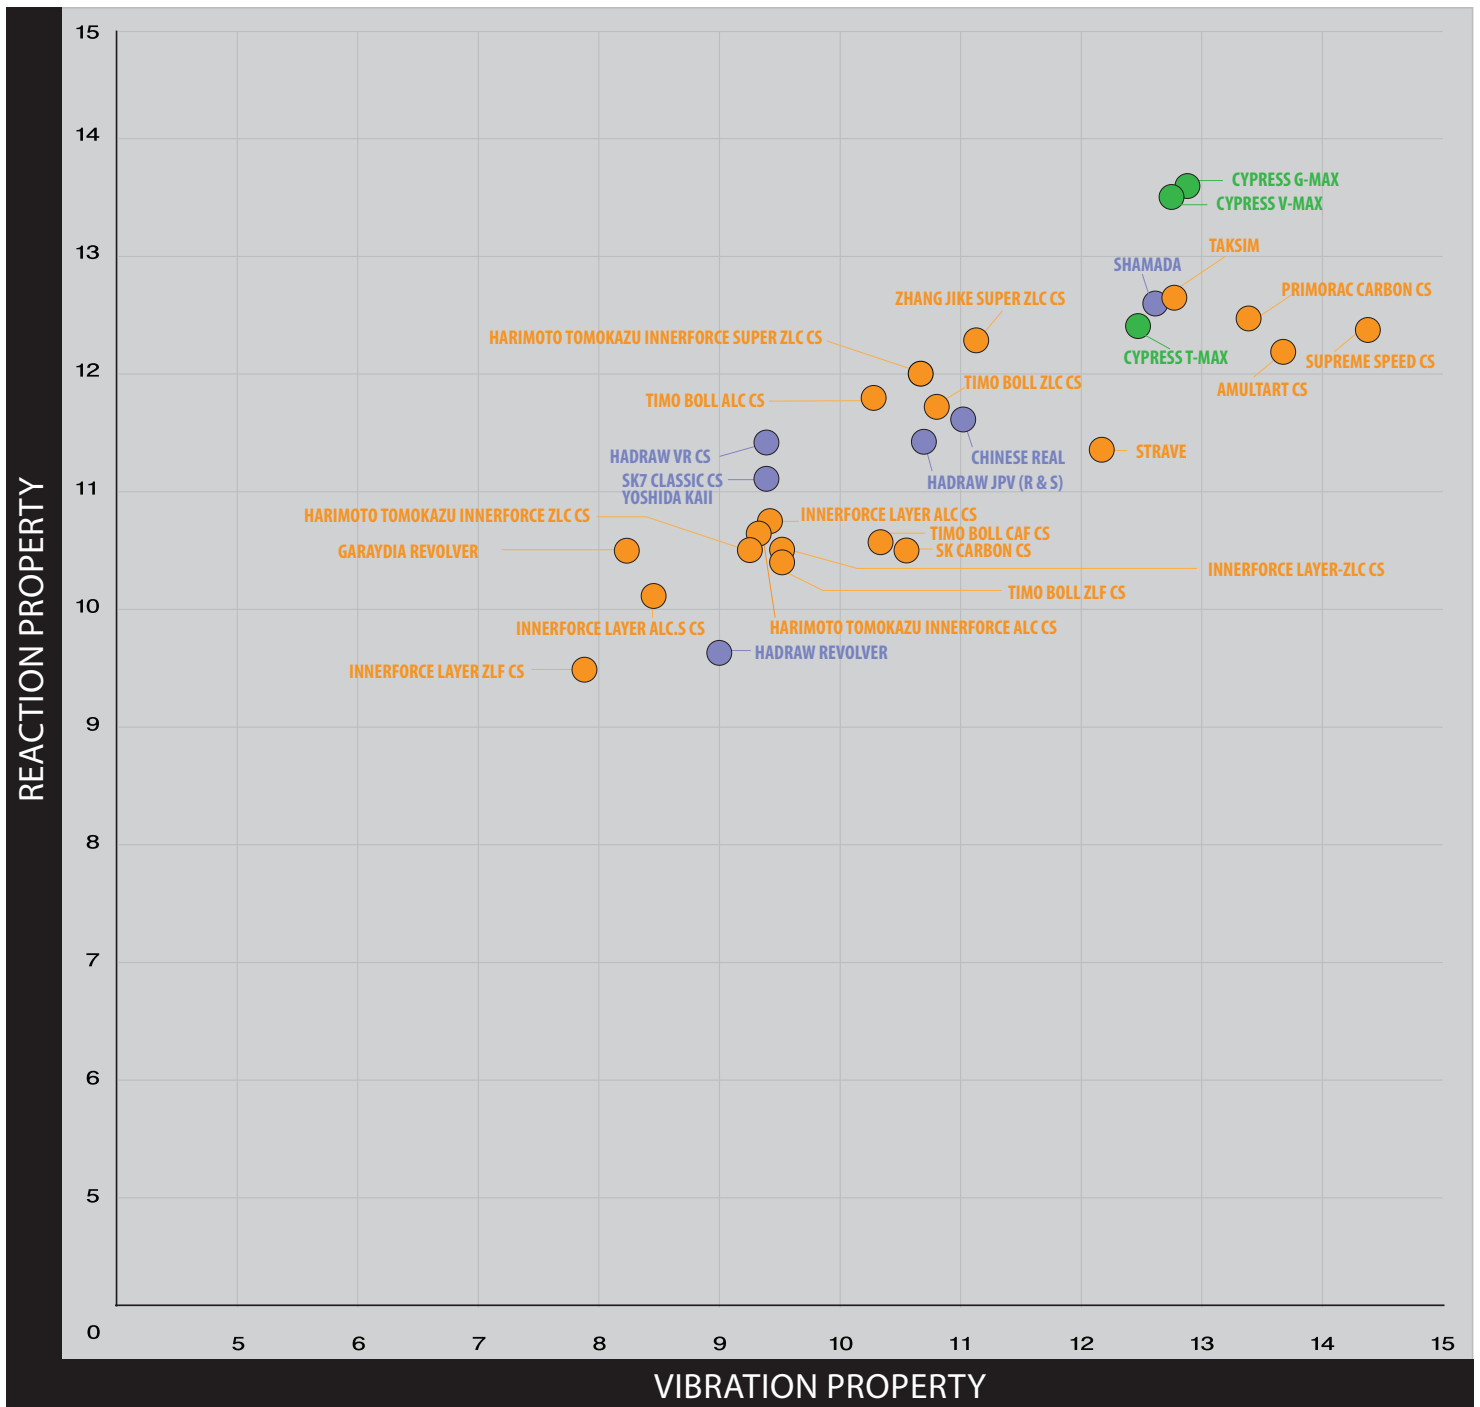

BUTTERFLY SHAKEHAND BLADE

REACTION PROPERTY

*The reaction property is the quantified value illustrating the base speed of a blade. A low reaction property signifies the lower speed of the ball after contact with the blade. A high reaction property signifies the higher speed of the ball after impact

VIBRATION PROPERTY

*The vibration property is the quantified value illustrating the feeling of a blade on impact. A low vibration property in general signifies slower vibration on ball contact and denotes a blade with a softer touch. A high vibration property in general signifies faster vibration of the blade on contract with the ball and denotes a blade with a harder touch.

PLYWOOD COMPOSITION

1-ply wood

3-ply wood

5-ply wood

7-ply wood

GRIP SHAPE (SHAKEHAND)

FL Flare> Gravity center is closer to grip and the blade fits in the palm.

ST Straight > The straight grip enables to change a way of grip according to the play.

AN Anatomic> Wave-shape grip fits in the palm and provides stability.

SI Straight Incline>The width is straight and the thickness becomes thicker toward grip-end.

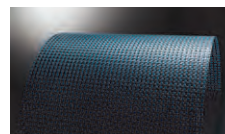

FEATURES OF MATERIALS FOR BLADE

Extra fine fibers obtained by finely loosening plant fibers such as wood to nano size (1 nm is 1/1,000,000 of 1 mm). Its feature is the lower vibration property which brings the feeling of holding the ball to the blade despite of the high bounce.

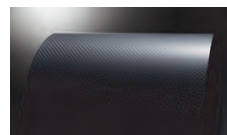

ZL-Fiber has a detailed molecular configuration that is strong and elastic. Its ratio is 10 percent lower than Carbon fiber, thus making the blade both light and with a high performance level.

Arylate-Carbon is a special material created with a woven combination of Arylate and Carbon. Blades using Arylate-Carbon have power, speed and control.

Super ZL-Carbon has 1.8 times as much densely woven Carbon-Fibers and ZL-Fibers in mass, as the existing ZL-Carbon by using special technology. The remarkable reaction and control provided by the expanded high-reaction area has taken the blade to the next stage.

Carbon (TAMCA-5000) is strong and light: six times stronger and one fifth in weight compared with iron and steel. Blades using TAMCA-5000 are light and strong with high elasticity and enable high performance.

ZL-Carbon is a woven combination of Carbon fiber and ZL-Fiber: Carbon fiber has a high reaction level and ZL-Fiber provides strength, elasticity and lightness. ZL-Carbon, the super fiber, gives the blade a high level of performance.

CA-Fiber is a special material derived from wood. As it is very flexible, it helps to "hold" the ball which offers a higher level of control. Additionally, the tensile strength is high so there is also good speed.

*Spryer rubber with 1.9mm sponge

BTY 201 FL

The Butterfly 201 shakehand racket is assembled with Butterfly Yuki rubber on both sides.

The Yuki rubber is extremely tacky offering tremendous spin.

The hard 2.0mm sponge layer will provide excellent quickness and speed.

Comes with a free racket cover.

Speed: 65 | Spin: 72.5 | Control: 85

BTY 302 FL

The Butterfly 302 shakehand racket is assembled with Butterfly Yuki rubber on both sides.

The Yuki rubber is extremely tacky offering tremendous spin.
The hard 2.1mm sponge layer will provide excellent quickness and speed.

Comes with a free racket cover.

Speed: 72.5 | Spin: 75 | Control: 85

BTY 303 FL

Assembled with Yuki & Magnitude rubber.

Yuki is extremely tacky offering tremendous spin

Magnitude is a pips-out rubber featuring a taller pip that will add a wide variety of spin to your arsenal.

Hard 2.1mm sponge will provide excellent quickness & speed.

Free racket cover.

Speed: 72.5 | Spin: 75 | Control: 85

BTY 401 FL

The Butterfly 401 shakehand racket is assembled with Butterfly Yuki rubber on both sides.

The Yuki rubber is extremely tacky offering tremendous spin.
The 2.1mm sponge layer will provide excellent speed and more springy feel on all shots.

Comes with a free racket cover.

Speed: 80 | Spin: 80 | Control: 85

BTY 501 FL

The Butterfly 501 shakehand racket comes in an attractive colorful box that makes it ideal for gift giving

It is assembled with Butterfly Pan Asia rubber on both sides

The Pan Asia rubber is extremely tacky offering significant spin

The hard 2.0mm sponge layer will provide excellent quickness and speed

Comes with a free racket cover

Speed: 80 | Spin: 80 | Control: 70

BTY 603 FL

The Butterfly 603 shakehand racket comes in an attractively designed gift box that is heavy duty and closes with magnetic tabs

Assembled with Butterfly Wakaba rubber on both sides, 2.1 Red Rubber, 1.9 Black Rubber

The Wakaba rubber is very tacky offering significant spin and speed

Comes with a free racket cover

Speed: 82 | Spin: 90 | Control: 85

BTY 702 FL

The Butterfly 702 shakehand racket comes in an attractively designed gift box that is heavy duty and closes with magnetic tabs

Assembled with Butterfly Wakaba 2.1 Black Rubber on the backhand and Flextra 2.1 Red Rubber on the forehand

The Wakaba rubber will produce a little less spin and speed, but offer a bit more control.

The Flextra rubber has great all-round characteristics, perfecting the balance of speed and spin for the advanced recreational player.

The racket is a 5-ply wood construction with two reinforcing fibers made of Carbon fiber which makes the racket faster and enlarges the sweet spot.

Also includes a Butterfly Full Case which is useful to store and protect your racket.

BTY 802 FL

The Butterfly 802 shakehand racket comes in an attractively designed gift box that is heavy duty and closes with magnetic tabs

Assembled with Butterfly Wakaba 2.1 Black Rubber on the forehand and Flextra 2.1 Red Rubber on the backhand

The Wakaba rubber will produce a little less spin and speed, but offer a bit more control.

The Flextra rubber has great all-round characteristics, perfecting the balance of speed and spin for the advanced recreational player.

The racket is a 5-ply wood construction with two reinforcing fibers made of Arylate/Carbon fiber which makes the racket faster, reduces vibration at impact and enlarges the sweet spot.

Also includes a Butterfly Full Case which is useful to store and protect your racket.

ZHANG JIKE BOX SET

China's Zhang Jike is two-time World Champion (2011 & 2013) and won gold at the Summer Games in London

The racket is a 5-ply wood construction with two reinforcing fibers made of carbon fiber which makes the racket faster and enlarges the sweet spot

The Flextra rubber has great all-round characteristics; a balance of speed and spin for the advanced recreational player

Attractively designed gift box is heavy duty and closes with magnetic tabs

Includes a Tour style racket case that can hold two rackets and four balls

Speed: 92.5 | Spin: 87.5 | Control: 55

BTY 302 CS

The Butterfly 302 penhold racket is assembled with Butterfly Yuki rubber on both sides.

The Yuki rubber is extremely tacky offering tremendous spin.

The hard 2.1mm sponge layer will provide excellent quickness and speed.

Comes with a free racket cover.

Speed: 72.5 | Spin: 75 | Control: 85

BTY303 CS

Assembled with Yuki & Magnitude rubber.

Yuki is extremely tacky offering tremendous spin

Magnitude is a pips-out rubber featuring a taller pip that will add a wide variety of spin to your arsenal.

Hard 2.1mm sponge will provide excellent quickness & speed.

Free racket cover.

Speed: 72.5 | Spin: 75 | Control: 85

NEW

Lezoline Rifones

Flagship model in LEZOLINE series

*Size: Navy 4.5 - 12.0 / Lime 4.5 - 10.0 / Magenta 4.5 - 10.0

*Material(Upper): Main body= synthetic fiber, reinforcing part= synthetic resins, artificial leather*Material(Sole): Rubber, EVA / B-Armor | B-Absorber | Wingrip | B-Ridge | STB | One-sided shoe tongue.

B-Armor

Covering the front upper part with KPU material of high stiffness. It cushions the forefoot and protect from rapid movements.

One-sided shoe tongue

Connecting only the inside part of the shoe tongue, preventing undesired movements and enhances the feeling of a perfect fit.

B-Ridge

Bridge-shaped middle sole supports sliding motion during footwork.

B-Absorber

Special shock absorbing sponge placed between outer and middle sole of the forefoot features cushioning and flexibility.

Wingrip

Specially formed outer sole has high ability of grip, and assists your correct movement.

STB

It prevents distortion of the shoes which happens through the particular movement of table tennis, and bring you stable footwork.

NEW

Lezoline Gigu Shoes

*Model For Top Players With Excellent Shock Absorption

*Equipped with the thickest sole in the Lezoline series, it exhibits excellent shock absorption.

*In addition, a fully-covered upper with high holdability that enhances the fit.

*Designed to support the movement of top players.

NEW Sunika Trainers

With a flexible outer structure and a cushioned, soft sole, Sunika features superb wearing comfort and fashionable looks, suited for leisure and daily use alike. Due to the lightweight construction, SUNIKA is not recommended as a table tennis shoe.

Lezoline Mach

High-spec LEZOLINE meeting top players' requirements

*Size: 22.5–30.0cm(16 sizes)

*Material(Upper): Main body= synthetic fiber, reinforcing part= artificial leather

*Material(Sole): Rubber, EVA I B-Absorber I Wingrip I B-Ridge I STB

B-Ridge

NEW

Suitcase TABI

The TABI suitcase sets a new standard for table tennis players both inside the hall and during travel.

*Dimensions: Height:49 x Length: 36 x Width: 23cm

Its durable hard shell material with crisp surface, four steering wheels, durable TSA compatible lock and the cabin size dimensions make it the perfect companion for air travel, the specially designed inner compartments with zipped protection net provide space and protect all necessary table tennis equipment in daily use and on the road.

Stanfly Tour Bag Gold

- *Spacious inner compartment offers plenty of room for all of your sporting needs
- *Adjustable shoulder strap
- *3 outer pockets with zipper, 3 open pouch-type and 2 inner pockets with zipper
- *Dimensions: 32 x 61 x 31 cm

Stanfly Shoulder Bag Gold

- *Perfect for your laptop, documents and other accessories
- *Bottle compartment, key hook
- *Adjustable shoulder strap one outer zipper pocket, two open pouch type and one inside zipper pocket
- *Dimensions: 30 x 40 x 19 cm

Black Line Rucksack

- *High mobility
- *Comfortable shoulder straps
- *Safety compartment on the back

Black Line Sport Bag

- *Designed for table tennis needs
- *Multiple inner and outer compartments
- *highly durable Polyester D1680 material
- *Adjustable shoulder strap
- *58l volume

Black Line Trolley

- *Main telescoping handle locks into place
- *Main compartment has two adjustable straps to secure your items
- *Rolls smoothly via inline skate style wheels
- *Dimensions: 55 x 36 x 20cm

Black Line Maxi Bag

- *Spacious maxibag with 100l volume
- *Perfect for travel and extended events
- *Additional protected bottom compartment for sensitive clothing
- *Extendable handle and sturdy wheels

Black Line Shoulder Bag

- *Modern Shoulder bag with laptop compartment and bottle holder
- *inner compartment with Key anchor

Black Line Midi Bag

- *Midi bag for essential equipment
- *Practical outer and inner compartments
- *Also suited as fitness bag

Melowa Suitcase Silver

- *The Melowa Suitcase provides a dynamic appearance everywhere
- *Features robust hard shell material, four individually suspended castors and easily converts hand luggage
- *In the spacious interior compartment, important luggage is always ready to handle and well protected
- *Permanently installed lock protects against unwanted access and is TSA compliant
- *A coveted companion especially during air travel
- *Dimensions: 49 x 36 x 23 cm

Sendai Duffle Bag

- *The Duffle Bag SENDAI provides volume for all essential sports- and table tennis equipment
- *Framed by two zipped outer compartment
- *Smart extra: After usage, the duffle bag is easily folded for minimum storage requirement.

Sendai Rolltop Rucksack

The new Backpack SENDAI will leave a great impression in the training hall and on the road. It features a modern courier-style roll-top and is made from durable Polyester 420D. With its smart inner compartments, SENDAI provides enough space for essential sports equipment – or daily accessories.

Sendai Gymbag

Versatile gym bag with practical zipper compartment.
Made of Jacquard Polyester
38 x 48 x 2cm

Kaban Sports Bag

The new bag series KABAN features a fresh design and is specifically tailored towards the essential needs in table tennis. Its high standards in functionality, quality and a superb price/performance ratio have been a major focus in design for all bags of the KABAN series, featuring metal zippers, an additional outer pocket a shoe bag, adjustable straps. KABAN bags are made from highly durable Polyester 420D material.

Perfect companion for sporting events of any scale. Two side pockets and spacious inner compartment holding 80l. Well suited for daily use in training and multi-day tournaments alike.

Kaban Midi Bag

The new bag series KABAN features a fresh design and is specifically tailored towards the essential needs in table tennis. Its high standards in functionality, quality and a superb price/performance ratio have been a major focus in design for all bags of the KABAN series, featuring metal zippers, an additional outer pocket a shoe bag, adjustable straps. KABAN bags are made from highly durable Polyester 420D material. The Midi Bag provides space for training needs, holding racket case, shoes, towel clothing and drinking bottle.

Kaban DX Case

Kaban Tour Case

Racket case for a two rackets made from durable Polyester 420D material.
Center section has one large and three small mesh pouches to accommodate balls, cleaner, sponge, extra rubbers sheets, etc.
Tray divider with handle notch for two rackets and cut-outs for four balls
Padded front and back panels
Zipper closure and carrying strap

Black Line DX Case

BLACKLINE double case has a spacious compartment for up to two rackets with a blade protector, while the accessory compartment organizes all necessary items. Carry-loop included, made from durable Polyester D1680

Black Line Tour Case

BLACKLINE single Case features a spacious compartment with blade protector, a high quality zipper and a functional carry-loop.
Made from sturdy Polyester D1680 material

Lojal Full

- * Racket shaped case can accommodate a shakehand or penhold racket
- * Padded front and back panels
- * Made of heavy-duty nylon
- * Zipper closure

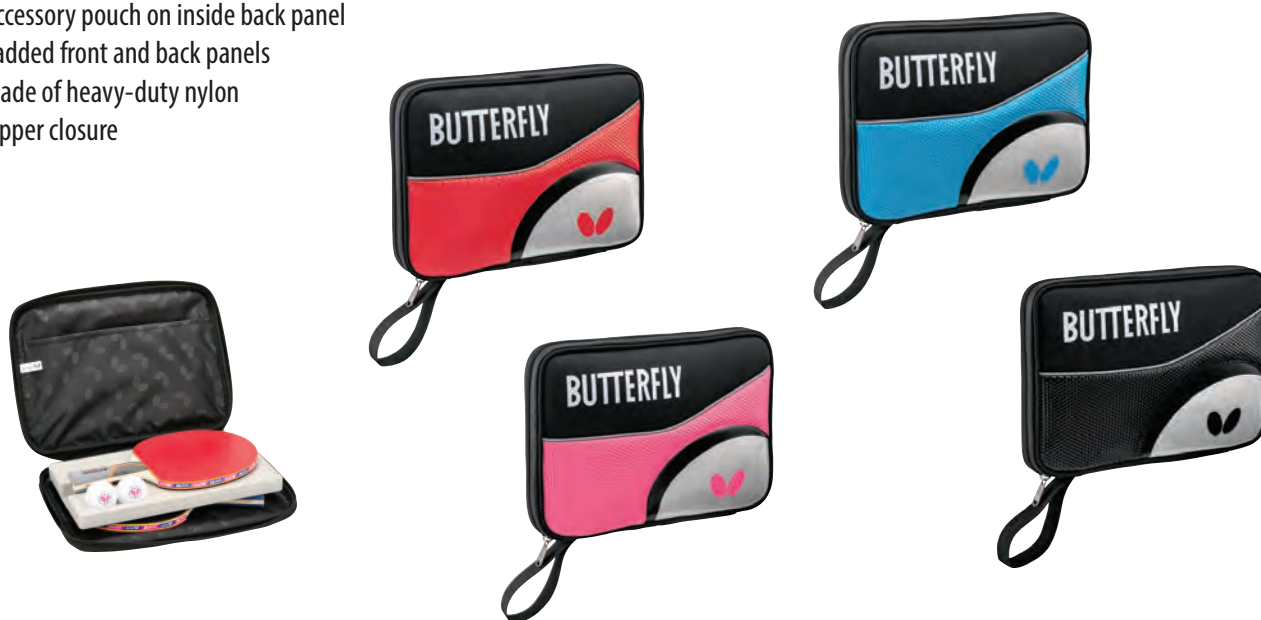

Lojal DX

- * Center section has one large and three small mesh pouches to accommodate balls, cleaner, sponge, extra rubbers sheets, etc.
- * Tray divider with handle notch for two rackets and cut-outs for four balls
- * Padded front and back panels
- * Made of heavy-duty nylon
- * Zipper closure and carrying strap

Lojal Tour

- * Tray divider with handle notch for two rackets and cut-outs for four balls
- * Accessory pouch on inside back panel
- * Padded front and back panels
- * Made of heavy-duty nylon
- * Zipper closure

BD Tour Case

- * Tray divider with handle notch for two rackets and four balls
- * Accessory pouch on inside
- * Padded front and back panels
- * Made of heavy-duty nylon
- * Zipper closure

BD Full Case

- * Racket shaped case can accommodate a shakehand or penhold racket
- * Padded front and back panels
- * Made of heavy-duty nylon
- * Zipper closure

NEW

Tano T-Shirt

The contrast between shirts in wide variety of colors and the more understated, lined Hoodie underlines the individual character of the TANO series.

Using the popular "Micro DryFit" material mix, TANO features breathability, skin-friendliness and a comfortable wearing sensation which makes it a perfect fit for all sporting and leisure activities.

Tano Jacket

The contrast between shirts in wide variety of colors and the more understated, lined Hoodie underlines the individual character of the TANO series.

Using the popular “Micro DryFit” material mix, TANO features breathability, skin-friendliness and a comfortable wearing sensation which makes it a perfect fit for all sporting and leisure activities.

Details

Perhaps the greatest value in the line of playback tables.

Large 5" double wheels, partnered with the side beams and 1 1/2" steel rim, provide for the highest level of performance in this price-range.

Legs are indented from the ends and sides of the table for unhindered footwork.

Two safety levers on each table side provide an effective child safety feature.

Folds into the playback and storage positions without removing the net and post, which are included.

TABLE FAQ

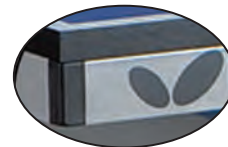

TOP

Simply put, the thicker the top, the better the bounce. A wood top that is at least 1/2" thick is suitable for home or recreational play. Many institutional tables are 5/8" to 3/4" thick. Almost all professional quality tables are a minimum of 7/8" to 1" thick.

RAIL

A heavy gauge steel rail will reinforce the structure of the table and provide additional support. It also serves a cosmetic purpose, adding to the beauty of your table.

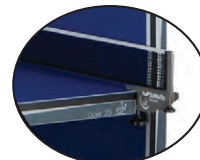

LEGS

Heavy gauge steel legs provide a solid foundation for your table. Round legs are sufficient, but square legs are more structurally sound.

NET

All of our tables come with a net set. Our Home and Outdoor use tables offer a basic net. The Institutional and Professional level models are equipped with a higher quality cloth net which clamps directly to the table and features heavy duty brackets with padded clamps that help protect the surface of the table. These nets also offer a dual precision height adjuster.

PLAYBACK POSITION

Most models allow you to fold up one half of the table and use it as a backboard. This will quicken reflexes and sharpen hand-eye coordination. A great feature for the kids.

ADJUSTABLE FEET

Many of our Institutional and Professional level tables have adjustable feet. This will ensure that the table is level, even when the floor is not.

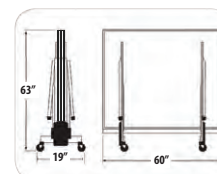

ACCESSORY HOLDER

Some models feature a convenient accessory holder that is integrated into the frame of the table. It will accommodate multiple rackets and balls. This system also allows the net to remain attached to the table during play as well as in the storage position.

DIMENSIONS

Measure your intended playing area before ordering a table. In the play position, the table measures 9' long by 5' wide. The net brackets will add approximately 1' to the width of the table. An additional 5' on each side of the table will allow a comfortable distance for play. Storage height will vary, so be sure to check the product descriptions for more information.

It is also a good idea to measure all doorways, hallways and stairwells that the table may encounter prior to reaching its final destination.

Amicus Prime

Amicus Prime Robot

The new AMICUS PRIME sets out to redefine the possibilities of a table tennis robot and will excite fans all over the world. The innovative PRIME is controlled wirelessly via Bluetooth technology from the AMICUS app running on either the included tablet computer or any smartphone or tablet operating iOS or Android.

AMICUS app software offers a multitude of interactive content, improved and added to with regular updates. Creating exercises, changing spin, speed, placement and trajectory has never been easier.

Pre-saved exercises created by professional players and coaches are playable at the press of a button with in-app videos by stars such as Timo Boll just waiting to show the correct execution and provide useful additional information from his regular training with the AMICUS robot.

Get acquainted to our AMICUS flagship model and discover the new possibilities of the most tireless, and always ready, training partner you will find.

Special features of AMICUS PRIME:

- *Ball frequency of up to 120 balls per minute Spin, speed, trajectory and placement can vary from ball to ball.
- *Controlled by the application on tablet (or user supplied Android or iOS device) and connected wirelessly to main robot via Bluetooth. *Software and firmware regularly updated with help of the app. Several robots may be operated by one device (consecutively). Device can be re-charged directly at the robot.
- *Left-Right (mirror) switch for reversing drills to match the dominant hand of the user so forehand/backhand placement are correct.
- *Sample function to test individual balls within a drill.
- *Individual Frequency Control can customize the time interval between any two consecutive balls.
- *Cycle function lets you easily incorporate interval training in your table tennis practice sessions.
- *Pre-programmed with 20 drills created by German Butterfly Coach Richard Prause and pre-programmed drills can be modified or replaced.
- *Integrated videos show how to properly practice each pre-programmed drill.
- *You may sequence together several drills by using Cluster Memory so a sequence of drills runs automatically either one after the other or randomly.
- *Key-fob-like remote control (small, lightweight and easy to fit in pocket)

Amicus Expert

Amicus Expert

The new AMICUS EXPERT combines the skills of both predecessors ADVANCE and PROFESSIONAL. With 99 memory slots, up to seven individual balls per exercise and precise control over trajectory, placement, speed and spin of each ball, AMICUS EXPERT further features up to 100 balls per minute, cycle and random functions as well automatic adjustable delay between each ball to create exercises based on real game situations – even with serve!

AMICUS EXPERT offers 20 pre-installed exercises created by Butterfly coach Richard Prause for you to start training on the highest level as well as a remote control for Start/Stop, sampling balls and adjusting ball frequency.

Special features of AMICUS EXPERT:

- * Ball frequency of up to 100 balls per minute Spin, speed, trajectory, and placement can vary from ball to ball.
- * Stores up to 99 drills of up to 7 balls each.
- * Pre-programmed with 20 drills created by German Butterfly Coach Richard Prause
- * Pre-programmed drills can be modified or replaced.
- * Sample function lets you test individual balls within a drill.
- * Cycle function lets you easily incorporate interval training in your table tennis practice sessions.
- * Automatic frequency control to provide the most realistic timing between shots in a drill.
- * Connected with help of an easy and secure thin cable.
- * Key-fob-like remote control (small, lightweight and easy to fit in pocket).

Amicus Start

AMICUS START

The new AMICUS START is a high-quality table tennis robot featuring precise and durable hardware combined with a user-friendly panel. Allowing for up to six balls per exercise, AMICUS START allows you to adjust individual placement and select either topspin, sidespin or backspin for the exercise – even float balls without spin are possible. The Random function provides a realistic playing experience sure to improve footwork and technique alike.

Special features of AMICUS START:

- *Simple interface
- *Up to 6 balls per drill, all balls with same spin, speed, & trajectory
- *Ball frequency of up to 100 balls per minute
- *Left-right Placement can change for each ball in a drill.
- *Connected with help of an easy and secure thin cable.
- *Optional: Key-fob-like remote control (small, lightweight and easy to fit in pocket).

Amicus Prime

Upgrade Kits

Details

Convert Your Amicus Professional, Advance, Or Basic Model To A Prime With Android Tablet Controller.

Wirelessly Connect Controller to Robot Over Bluetooth. Get Software Updates Over The Internet.

See Top View & Side View Diagrams Showing Complete Drill Info. Watch Video Demonstrating The Drill.

Rearrange Drills; Customize Drill Names; Use Search To Find Desired Drill; Send Drills To Friends.

Add, Delete, Reorder, & Duplicate Shots In A Drill. Use Mirror To Instantly Reverse L/R Placements.

Update your Amicus Professional, Advance, or Basic table tennis robot to the latest technology! With this simple, **easy-to-install kit**, give your old model Amicus robot the same functionality as the top-of-the-line Amicus Prime. Control your updated robot with the supplied **Android tablet** that connects wirelessly to your robot. Join a Wi-Fi network to **share drills** with friends or update software and firmware to fix bugs and add new features.

The **engaging visual interface** of the Prime provides side view and top view diagrams of all shots in a drill along with quick-to-decipher information on spin type, spin amount, ball speed, shot order, placement, and height for **up to 10 different shots in a drill**. Or **watch a video** of Butterfly's Tiago Apolonia from Portugal, flawlessly demonstrate the drill. Vary the spin, speed, placement, height, and/or timing of each shot. Or randomize shots for human-like play. Flip the **Mirror switch to reverse L/R placements** so a drill runs correctly for left-hand or right-hand players, or to instantly create a new drill variation. Or sequence together multiple drills into a game-like routine.

Once you have your drill fine-tuned to your specific needs, save it for quick recall. Give it any name you want and place your drills in any order. Use search to quickly locate your drill. The newest software version also saves the ball frequency with the drill; the first time this feature has been available on any Amicus model. The **tablet gives you storage for virtually unlimited number of drills** and you can increase storage with micro SD cards.

This upgrade kit consists of an easy-to-install converter box that attaches to the serial port of your Base. It includes a Prime Tablet with Tablet Holder, Remote Switch, Owner's Manual, and charger. Once attached, control your robot with the pre-installed Amicus app and start/stop an exercise and adjust ball frequency with the included remote switch.

If you want the best ping pong robot, this is it. Butterfly Amicus Prime = No Compromises.

NEW

R40+

Plastic Ball

ITTF Approved

Butterfly A40+ 3-Star

The new plastic Butterfly 3-Star Ball is the official ball of the 2019 World Table Tennis Championships in Budapest, Hungary. Manufactured under strict quality control, this ball achieves high uniformity, stable rotation, speed and balance. Made in China

3 pcs./box

6 pcs./box

1 doz. (12 pcs.) / box

Butterfly S40+ 3-Star

3 pcs./box

1 doz. (12 pcs.) / box

Table tennis balls made from the innovative ABS material have become increasingly popular among players of all skill levels. The Butterfly S40+ is a product of our continuous development and rich experience in manufacturing competition balls from ABS material in Germany, leading to a marked improvement in playing characteristics.

The S40+ features a rougher surface which makes it easier to impart spin on the ball while the increased friction will also result in a lower bounce during topspin play and a more discrete sound. The even roundness and hardness result in a reliable bounce and high durability.

Butterfly Master Quality Training Ball (72 Pack)

The new Master Quality ball from Butterfly

Ideal for multi-ball practice, robot training and match play

Produced using the same guidelines as the other German-made plastic balls

Clean Care

- *New sponge containing antibacterial material
- *Soft sponge with sealable container

Racket Care Kit

PING PONG PADDLE CLEANER KIT:

Includes Butterfly Spin Refresh, Rubber Care Sponge and cleaning tips

Clean Brush

- * Cleaning tool for all your pip rubber sheets
- * Soft bristle brush

Clip Sponge

- * The Clip Sponge is intended to use with Free Chack or Free Chack II
- * Easily applies a thin, even layer of glue to the blade and sponge
- * Keeps your hands 'glue-free'
- * Each set contains 10 sponges and 1 Clip

Free Chack PRO

- * The new Free Chack Pro glue is more viscous compared to the original Free Chack.
- * It can increase the dwell time on the blade, resulting in higher amounts of spin.
- * Glue bottle, clips and sponge for application.
- * Note: Please shake before use

Free Chack

- * 100% liquidized natural caoutchouc
- * Easy to remove from sponge and racket
- * Price varies by product size

Free Chack II

- * Newly formulated, water based adhesive
- * Specifically designed for Spring Sponge rubbers; SpinArt and the Tenergy series of rubbers
- * Allows easy removal of excess glue from sponge and blade surface
- * Stronger bond than Free Chack

Chack Sheet

- * Transparent glue sheet
- * One sheet

Glue Remover

- * For optimal removal of glue residue on blade and sponge surfaces
- * The yellow foam sponge removes glue residue from the surface of the wood
- * The blue brush enables glue residue to be freed and then removed in small quantities (must use constant vertical motion)
- * Intended for use with Butterfly Free Chack (the Butterfly Remover is not guaranteed to work on all rubbers)

Dry Fit Tape

- * Fabric that absorbs moisture easily due to special processing technology. You can play comfortably even in sweat.
- * Color: Black, Yellow, Orange, Purple
- * size: 0.65mm thickness x 2.2cm width x 57.5cm length

BTY Adsorptive Film

- * Contains one sheet

Soft Grip

- * Similar to a tennis wrap
- * The Soft Grip provides comfort and additional thickness to the racket handle
- * The Butterfly logo is imprinted on the grip

Adhesive Protect

- * Sticky on one side
- * Prolongs the life of the rubber
- * Contains two sheets

Racket Sheet

- * Colored racket sheets
- * Adhesive back
- * For penhold blades

Rubber Film III

- * Durable plastic designed to protect the rubber surface.
- * Prolongs the life of the rubber.
- * Contains two sheets.

Overgrip Soft Tapes

- * High sensitivity material enhances the feeling of the handle
- * Maximum sweat absorption and non-slip profile
- * Embossed Butterfly logo grip
- * PU surface, elasticated Micro-Fiber base
- * Quantity: 3 pieces

Side Tape

* Length:

1m = 2 rackets
10m = 20 rackets
50m = 100 rackets

* Side Tape Butterfly - Colors & Sizes Black/white:

6mm x 10m, 6mm x 50m
9mm x 1m, 9mm x 10m, 9mm x 50m
12mm x 1m, 12mm x 10m, 12mm x 50m

* Side Tape Butterfly - Colors & Sizes Blue/silver:

12mm x 10m, 12mm x 50m

* Side Tape Tenergy - colors & sizes Orange:

12mm x 10m, 12mm x 50m

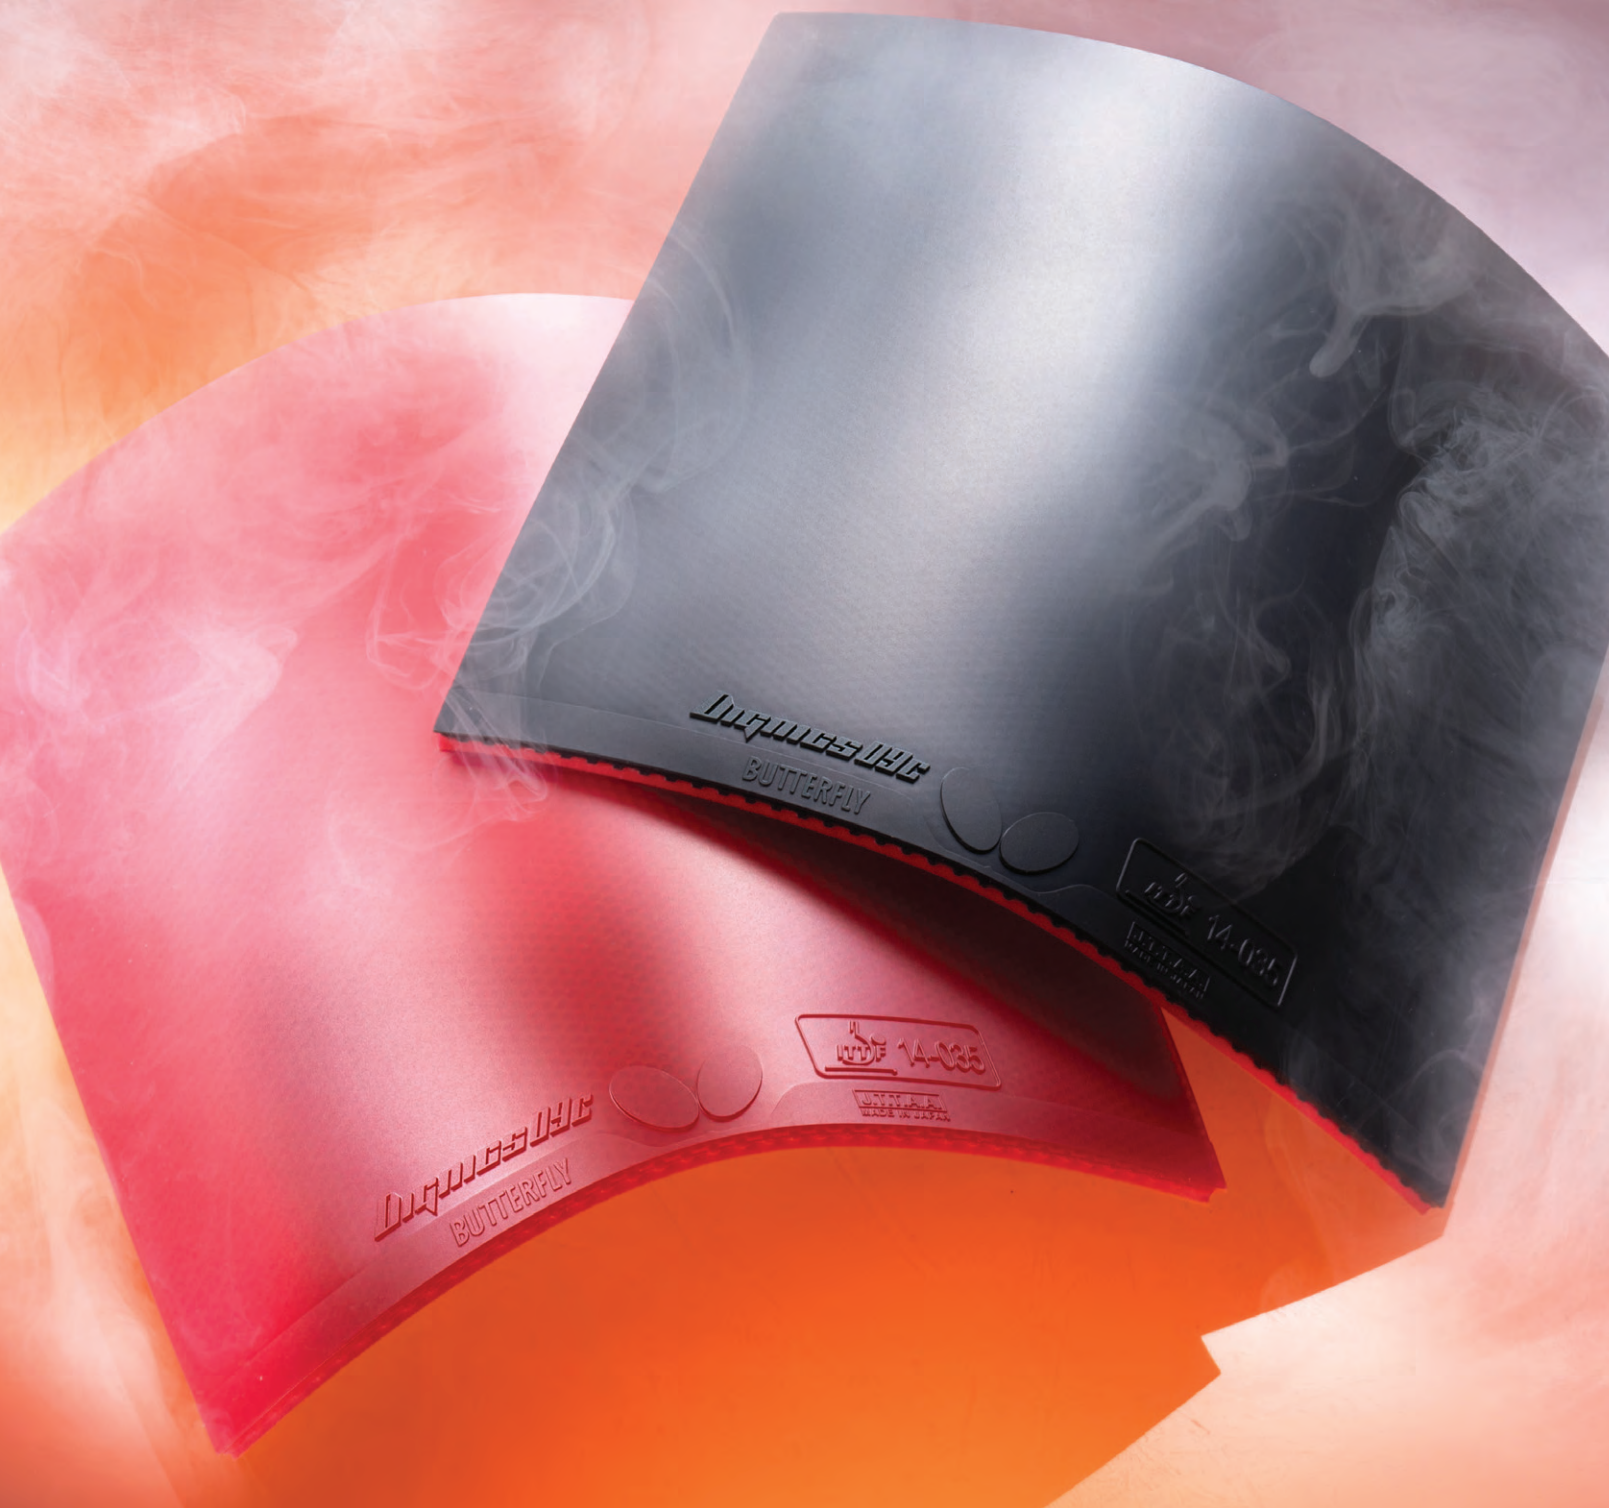

RB Protector II 10mm

- * Covers one racket
- Size: 10mm x 50cm

Power Tape

- * Adds weight to racket
- * Five one gram pieces
